

## CARRYING THE CORRECT MINDSET AND ARMOURY

Welcome back! I think we have reflected on our last term performance and have plans to move forward this term. We are almost in the middle of the year and our final exams are not that far. Let us keep focussing on the goals and targets we set for ourselves. Please have your own calculator and start using it. Most learners have a tendency to borrow during exam times. This does not assist learner at all because has to sometimes study how it functions. Practice makes perfect, right! Keep focused, keep studying, keep asking. We will make it!
