

To: FET Mathematics SAs, Parents, Teachers & learners

Topic: We are all winners

Message Objective(s):

1. To improve pass rates in FET Mathematics.
2. To enable teachers, parents, and learners to celebrate on this year's achievements and plan for year ahead.

Congratulations for getting this far and your resilience in not giving up doing Mathematics. We will soon celebrate the results come January 2023!

Let me take this opportunity to thank parents, teachers, tutors and education department officials for your tirelessly efforts in preparing the learners for these final examinations.

To our Grade 10s and Grade 11s, the ball is now in your court. Soon you will be writing your matric examinations too. This calls for us not relax, For these two grades, let us keep studying and watching the programmes on TV and other platforms.

To our teachers, may you share next year's content and expectations with learners and parents so that they start preparations now as you also prepare to teach effectively next year. This is also time to reflect on our achievements this year and our challenges and ask ourselves, what and how we can do better next year.

Keep visiting NECT website; www.nect.org.za for your teacher and other learning resources.

We are all winners and together we will celebrate!

All the best in your endeavors!
