# **Introduction**

Welcome colleagues,

We hope that Term 1 proceeded smoothly despite the pandemic restrictions, and that your learners made good progress. We also hope that the routine and core methodologies are feeling more familiar to you at this stage.

Please take careful note of the ATP / PSRIP alignment – because of the 6 week consolidation programme in Term 1, you will teach themes from Terms 1 and 2 in the 10 weeks of Term 2 2021.

We also hope that this term, you are able to pay more attention to the development of learners' executive function and comprehension skills.

Wishing you a healthy, safe and productive term.

# Orientation to the use of a Structured Learning Programme (SLP)

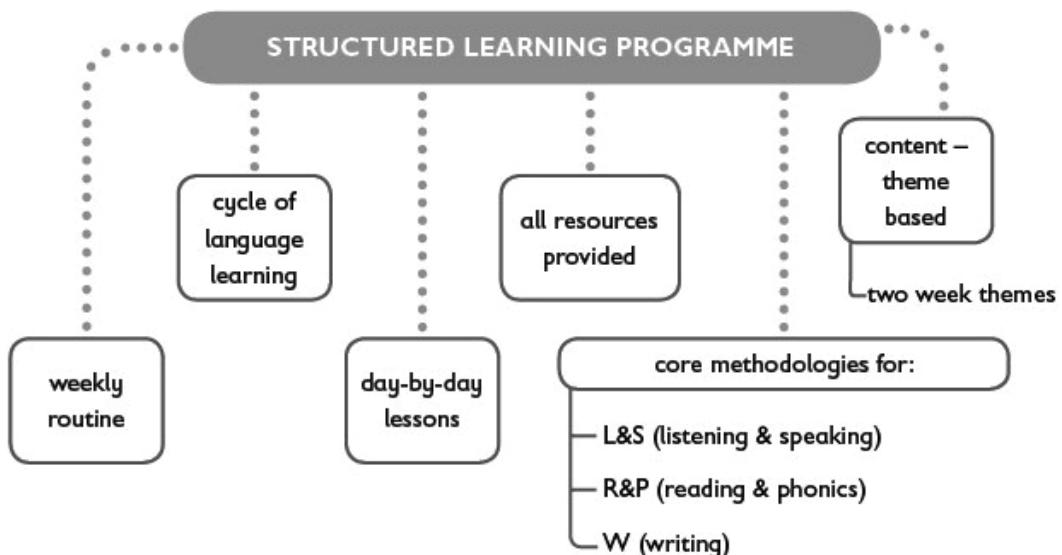

This structured learning programme is designed to teach EFAL at foundation phase level, in a South African context. The programme is CAPS aligned, and assessment tasks are aligned to the CAPS Section 4 revisions of 2019.

As per policy, the programme is text-based, communicative, integrated and process orientated. In addition, the programme is designed to support the development of technical reading skills and comprehension skills in a structured, explicit manner.

It is important to fully understand the concepts embedded in this approach as follows:

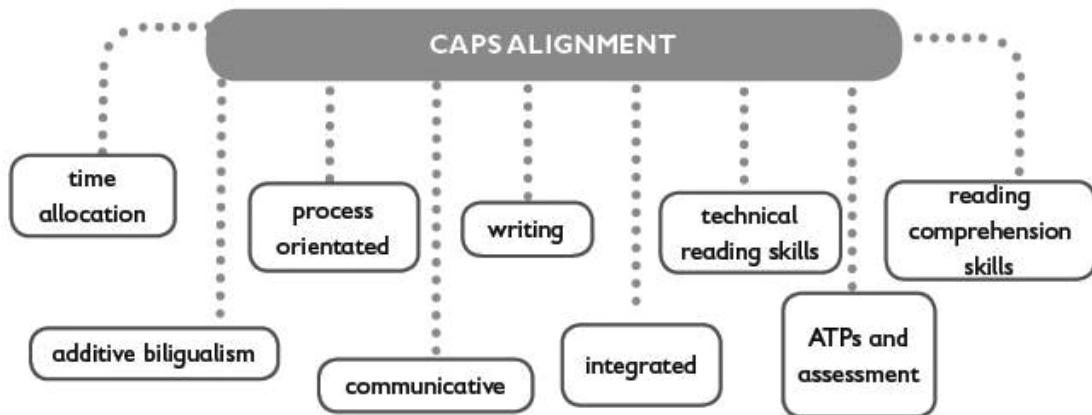

## Structured learning programme

A structured learning programme provides day-by-day lesson plans, together with all the required resources. This is sometimes referred to as a ‘structured pedagogical programme’ or as ‘direct instruction’. For this FP EFAL programme, a routine has been designed to effectively teach each component of language in a 3 or 4 hour weekly cycle. Within this routine, selected pedagogies, or ‘core methodologies’ have been included to teach different aspects of literacy and language. This allows both the teacher and learners to master the routine and activities, and to ultimately engage with them in a confident, expert manner. Once teachers and learners are familiar with the routine and activities, energy can be focused on the content. Content is developed around a theme, and each theme runs for two weeks.

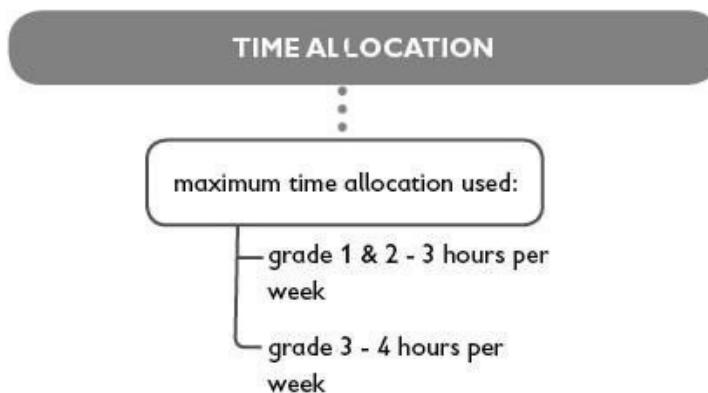

## CAPS (Curriculum Assessment Policy Statement) aligned

The programme complies with policy in terms of time allocations, the approach to teaching, the specific skills and genres to be taught, and the assessment tasks to be implemented.

### Time allocation

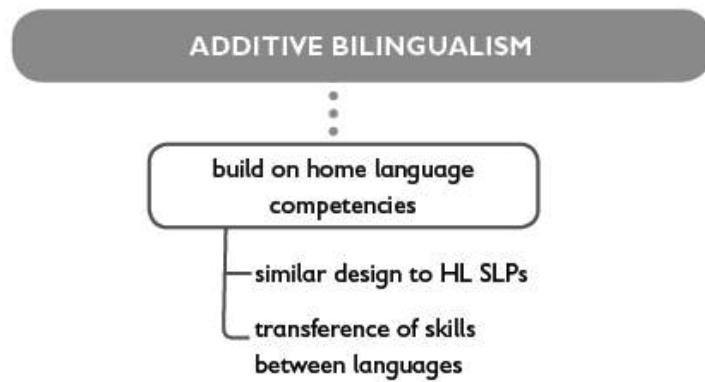

The PSRIP uses the maximum time allocation for FAL. This means that for Grades 1 and 2, the programme is designed for 3 hours per week. For Grade 3, the programme is designed for 4 hours per week.

## Additive bilingualism

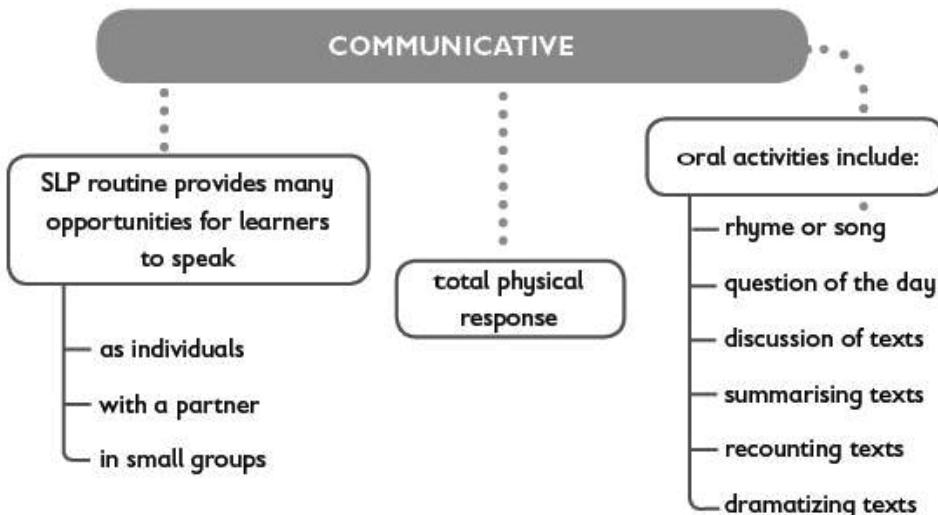

The programme depends on learners developing strong home language literacy competencies. It is designed to build on home language competencies.

*Note: The NECT FP HL SLP of 2021 is designed to cover the same themes, content and concepts, and to use the same ‘core methodologies’, thereby facilitating the transference of skills between languages.*

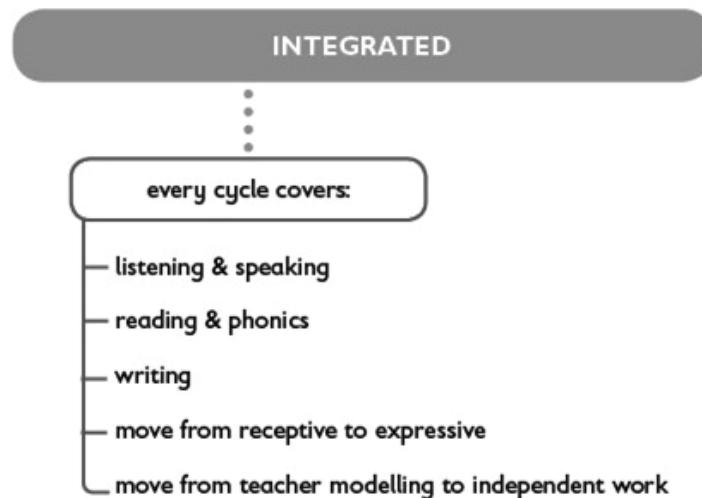

## Communicative

The communicative approach relies on learners having many opportunities to hear, practice and produce the targeted language, for social or practical purposes. The routine of this programme includes many opportunities for learners to use new language and vocabulary as individuals, with partners, and in small groups. Many of the oral activities require the use of total physical response – learners must listen, think, perform a movement or action, and respond orally.

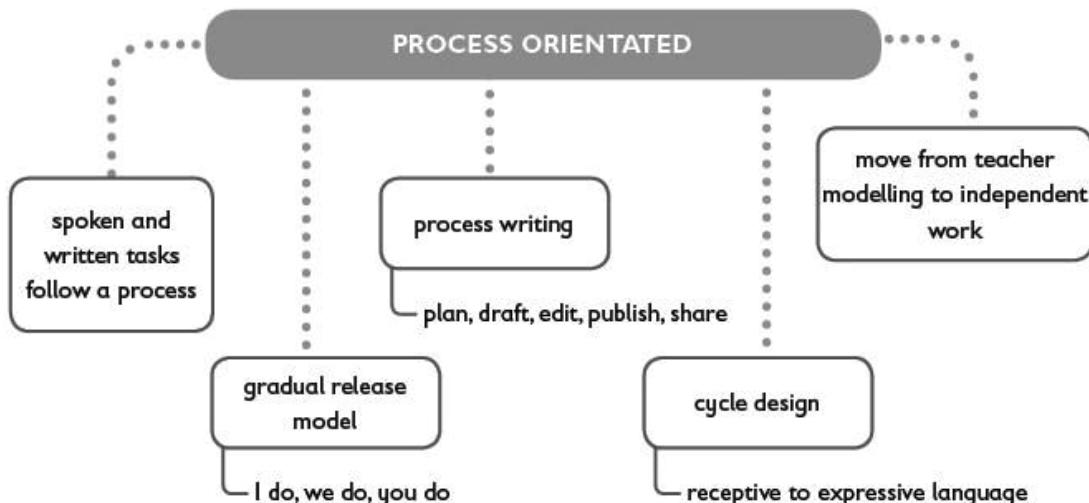

## Integrated

The weekly cycle includes an integrated approach to language development by routinely covering all components of language development, moving from the receptive skills of listening and reading, to the expressive skills of writing and speaking. Another aspect of integrated learning that is accounted for is that all lessons move from the teacher first modelling good practice, to learners practicing the skills with a partner or in a group, to finally working independently.

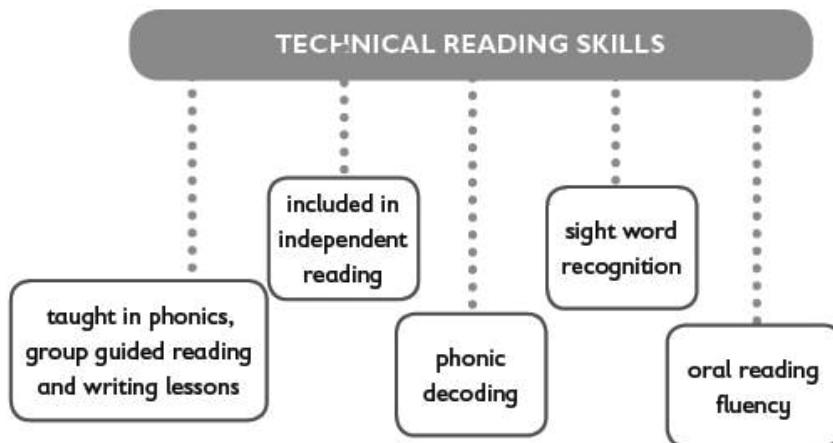

## Process orientated

In this programme, the production of spoken and written language is process orientated, and often includes the use of the gradual release method (I do, we do, you do). In terms of writing, process writing is introduced from Grade 1, with learners initially planning and drafting. By Grade 3, learners implement the full process writing cycle. The more significant speaking and writing tasks happen towards the end of the cycle, once learners have had the opportunity to hear, read and learn theme related language.

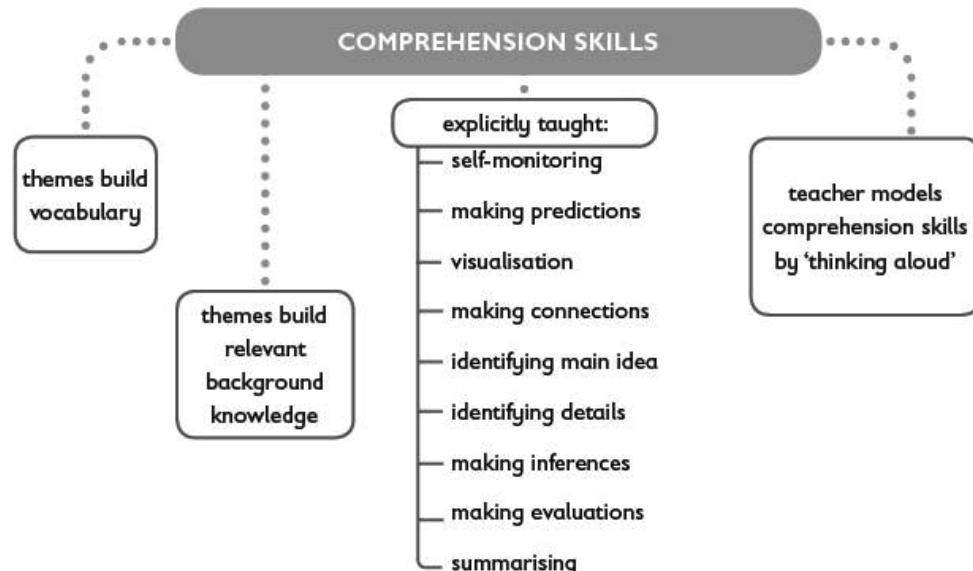

## **Technical reading skills**

This programme includes a highly structured approach to teaching technical reading skills through phonemic awareness, phonic decoding, word recognition and the development of oral reading fluency. These skills are taught during phonics lessons, group guided reading sessions, and in writing lessons. From Grade 2, decodable and independent reading texts are included as part of the reading worksheets.

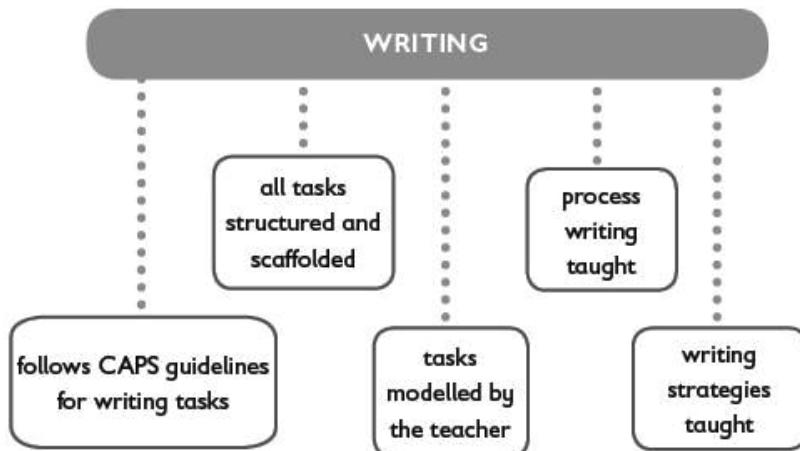

## **Reading comprehension skills**

Research has shown that vocabulary and background knowledge are key factors in reading comprehension. Because of this, themes include a wide range of content and concepts. Related vocabulary is explicitly taught and then used in context. Vocabulary from previous themes is reused where appropriate, and learners are encouraged to build and use a personal dictionary. Another key factor that is addressed in this programme is that comprehension skills are explicitly taught. This is done in every cycle during shared reading, where the teacher models the use of the comprehension skill by 'thinking aloud'.

## **Writing**

The programme follows the CAPS guidelines for writing tasks to take learners through the stages of emergent writing. All writing tasks are carefully structured and scaffolded for maximum support. The tasks are also explicitly modelled by the teacher. The same approach is taken to process writing from Grade 1 to Grade 3, so that as learners move through the grades, their understanding of process writing develops. Learners are also taught to use a series of ‘writing strategies’ to provide them with additional support in any writing task. Teachers are encouraged to extend writing tasks for learners who are capable of moving beyond the SLP tasks.

## **Conclusion**

At first the implementation of this SLP may feel a little overwhelming. It is important to remember that the same routine is followed every week, and the same activities are done every week. Once this is mastered, it becomes easy to focus on the content of the cycle, and to really engage with learners in a meaningful way.
