# Introduction

This resource pack has fifty numbered daily activities for classwork and homework. The activities correspond to the activities in the lesson plans. Answers to the activities can be written in this book.

These resources are bilingual. We hope that presenting the activities in two languages will help learners to learn the maths words in both their home language and in English. This will equip them for lifelong learning of maths.

If learners work systematically through these maths activities, they will cover the whole curriculum. Hopefully these activities will be a fun way to help them acquire this maths knowledge.

## Isethulo

Le nsiza-kufundisa inemisebenzi yansuku zonke elinganiselwa emashumini amahlau omsebenzi wasekilasini kanye nomsebenzi wasekhaya. Imisebenzi ivumelana nemisebenzi yezinhlelo zesifundo ezikuJika iMfundu. Isifundo sansukuzonke kufanele silandelwe umsebenzi wasekilasini bese kuba umsebenzi wasekhaya. Izimpendulo emisebenzini zingabhalwa kule ncwadi.

Le Ncwadi Yomsebenzi Womfundu ingezilimi ezimbili. Sethemba ukuthi ukubeka imisebenzi ngezilimi ezimbili kuzosiza abafundi ukuba bafunde amagama ezibalo ngolimi lwabo lwasekhaya kanye nangesiNgisi. Lokhu kuzobahlomisa ekubeni bafunde izibalo esikhathini esizayo.

Uma abafundi besebenza ngokuhleleka kule misebenzi yezibalo, bazohlanganisa lonke uhlelo lokufunda. Sethemba ukuthi le misebenzi izoba yindlela ejabulisayo yokubasiza ukuba bathole ulwazi lwezibalo.
